

Application Rules for the Sulphur Springs Horse Registry Inc.

All horses coming from the Sulphur Springs HMA are eligible for registration with the proper BLM paperwork.

All applications being submitted for registration of horses, which have been adopted from the BLM, must be accompanied by a copy of the Health and Identification records or other BLM documentation identifying the BLM catchment area.

If the horse being registered is out of unregistered parents and they are BLM freeze branded horses from the Sulphur Springs HMA, the foal can be registered if proper paperwork is submitted in a timely manner and has a copy of both parent's BLM titles attached to it.

To register a foal out of a registered mare and by an unregistered stallion, or unregistered mare and registered stallion, the foal will be registered in the appendix registry unless the stallion or mare is a BLM freeze branded horse from the Sulphur Springs HMA and/or sufficient proof of its lineage is provided.

Foals conceived in the wild that are not BLM freeze branded must be registered before One Year of age. If the mare is not registered, a copy of her title must be submitted with the registration form.

Hardship cases will be considered for SSHR members in good standing for any ineligible horse.
